INDEX OF ABSTRACTS OF TUBERCULOSIS

Aaronson, A. L. See Rubin, S. S., *et al.*, 38
Abelló, J. Cavernoscopy, 124
Abscess, Lung, 11, 12, 125
Absence, Congenital, of hemidiaphragm, 38
Acid-fast bacteria, Receptor analysis of, 105
—— bacterium in swine, 10
Ackermann, A. J. Tuberculosis of stomach, 80
Actinomycosis, 128
——, Pulmonary, 16
Activity, Index of, 111
Acute pulmonary oedema, 152
—— respiratory infection, 138
—— silicosis, 160
Adams, Z. B. Tuberculosis of spine, 75
Adenopathy, Tuberculous, 68
Adolescent females, Tuberculosis in, 48
Adolescents, Tuberculosis in, 48
Adults, Primary tuberculosis in, 54, 55
Agnello, V. Pulmonary lues, 15
Air, Residual, 87, 88
Alexander, J., and Haight, C. Hydatid cyst, 28
Allan, W. B., and McCracken, J. P. Aneurysm of pulmonary artery, 162
Allergy, Respiratory, 158
Allergy-producing properties of paratubercle bacilli, 101
Amberson, J. B., Jr., and Muschenheim, C. Interposition of colon, 1
Amyloidosis, 163
Analysis, Receptor, of acid-fast bacteria, 105
Aneurysm, Aortic, 162
—— of pulmonary artery, 162
Annual surveys, 46
Anthracite and tubercle bacilli, 96
Antigenic depot excised, 105
Antiseptics and detergents, 97
Aortic aneurysm, 162
Apical tuberculosis, X-ray study of, 108
Argemi, J., and Müller, R. W. Pericavitary atelectasis, 4
Army, Tuberculosis in, 49
Artery, pulmonary, Aneurysm of, 162
——, ——, Atherosclerosis of, and pulmonary emphysema, 29
Arthritis, Tuberculous, 73
Asbestosis, Silicosis and, 25
Ascher, M. S., and Waldbott, G. L. Respiratory allergy, 158
Aspergillosis in a skunk, 17
Asthma and tuberculosis, 61
——, Tuberculosis and, 60
Asthmatic bronchitis in children, 141
Asthmaticus, Status, 157
Atelectasis, 32
——, Pericavitary, 4
Atherosclerosis of pulmonary artery and pulmonary emphysema, 29
Atypical bronchopneumonia, 135, 137
Auerbach, O. Tuberculosis of bones, 71
Avian tubercle bacillus, Sensitization of cattle by, 9
—— tuberculin, 9

Babolini, G. Suction drainage of cavities, 7
——, ——., and Bottari, G. Intracavitary drainage, 118
——, ——. See Monaldi, V., *et al.*, 120
Bachmann, E. Follow-up in tuberculosis, 112
Bacilli, paratubercle, Allergy-producing properties of, 101
——, tubercle, Anthracite and, 96
——, ——, bovine, Isolation of, 100
——, ——, Culturing, from sputum, 98
——, ——, from spinal fluids, 100
——, ——, growth of, Inhibition of, 97
——, ——, in laryngeal content, 98
——, ——, —— rats, 84
——, ——, —— spinal fluid, Meningococci and, 81
——, ——, —— swine tonsils, 10
——, ——, —— urine, 99
——, ——, Influence of peanut oil on, 94
——, ——, Lymphocytes and, 84

Bacilli, Tubercle, on nonprotein medium, 93
——, ——, Virulence of, 93
Bacillus, tubercle, avian, Sensitization of cattle by, 9
——, ——, Morphological variation of, 95
——, vole, Vaccination of guinea pigs with, 103
Bacteria, acid-fast, Receptor analysis of, 105
—— in tuberculous cavities, 8
Bacterium, Acid-fast, in swine, 10
Bailey, R. L., Jr., and Stewart, H. J. Pneumothorax and circulation, 91
Bair, G., and Fineman, A. H. Tuberculin patch test, 106
Baker, A. B. See Diehl, H. S., *et al.*, 142
Balbi Robecco, J. M. Selective collapse, 114
Bang's disease, Tuberculin reaction and, 11
Barach, A. L., Martin, J., and Eckman, M. Acute pulmonary oedema, 152
Baur, O. Meningococci and tubercle bacilli in spinal fluid, 81
BCG in vaseline oil, 85
——, Sensitizing guinea pigs to, 104
—— vaccination, 105
Beach, B. A. See Hastings, E. G., *et al.*, 11

WANTED

To cooperate with institutions which seek to complete their sets and to replace files destroyed in the European War, the American Review of Tuberculosis is interested in obtaining the following back issues:

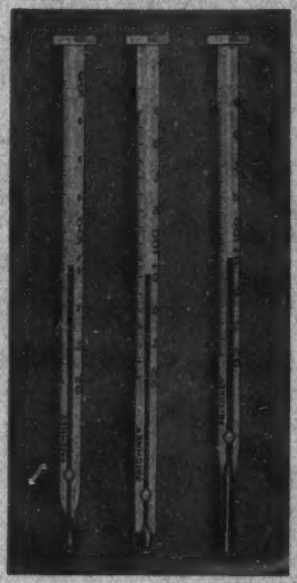
All numbers from March 1917 to February 1922 inclusive

1924—September only
1929—October only
1940—January to June

If you have any or all of these issues in good condition and care to dispose of them, please communicate promptly.

AMERICAN REVIEW OF TUBERCULOSIS

1790 Broadway, New York, N. Y.



"Tempglass Special" THERMOMETERS *for* Sanatoria Use

Especially adapted to sanatorium service... **Tempglass Special** thermometers have these important advantages.

- **Easier to Read**—94° to 106° scale calibrations are spaced 25% farther apart than on regular clinical thermometers.
- **"Shake" Tested**—Every Tempglass Special is selected for sanatorium use ONLY after repeated tests for easy shaking.
- **"Retreat" Tested**—Every instrument is carefully tested and checked against "retreating" . . . then "seasoned" from 4 to 6 months, and again inspected for retreating.
- **8 Certification Tests**—After repeated inspections and extra seasoning, each instrument receives eight certification tests for accuracy.
- **Economical to Use**—Our special tempering process makes the glass tough and durable. *Tempglass Specials* last longer . . . cost less, in the long run, than ordinary thermometers.

Prices: **Tempglass Special, any style bulb, per doz. . . . $6.50 per gross . . . $72.00**

Once tried, you will always want to use these better sanatorium thermometers. Order some today.

FAICHNEY INSTRUMENT CORP.
WATERTOWN, NEW YORK

Faichney Thermometers Since 1888

There is a Council-Accepted high potency fish liver oil available that is advertised only to the medical profession and not exploited to the laity... It is called

OLEUM PERCOMORPHUM

(Liquid and Capsules)
